## PRINCIPAL'S MESSAGE

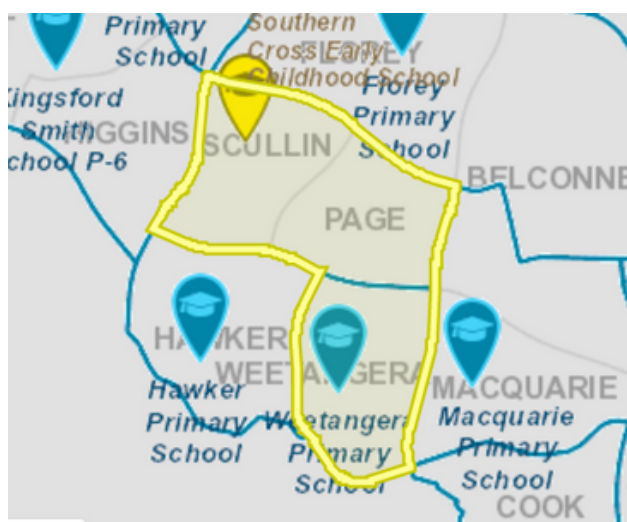

Students will embrace learning that will enable them to be engaged, successful and proud of their achievements. These goals are achieved through a focused curriculum that places students at the centre of the work that we all do, together.

Weetangera Primary School offers a broad curriculum and a range of opportunities that inspires our students to develop creativity, confidence and the resilience to achieve excellence in their various endeavours. We value kindness, critical thinking and curiosity.

Students graduate from WPS with the skills, mindsets and qualities that equip them for success in the world of the future. Our students are intelligent, resilient, imaginative and dedicated to life-long learning. They are the future leaders and role models of society. At Weetangera Primary School we embrace the challenges of the 21st century and seek to ensure that the academic habits of mind that focus our work leads to graduates who bring a sense of wonder, enthusiasm and joy to the world of learning, at school, each and every day.

Weetangera Primary School is for all of us Our place of learning. **Julie Cooper, Principal**
