Empowering families through early childhood behaviour intervention in a play-based environment.

OUR SERVICES

Free First Consultation

By providing the first free consultation, we aim to help families navigate through the support networks available, including NDIS, while also becoming aware of our behaviour intervention services and parent training options.

Training for Parents

Our approach is collaborative, we share easy-to-use tools that fit naturally into your daily routines. We help you feel empowered, informed, and supported in helping your child thrive.

One-on-one Sessions

Sessions are tailored to your child's unique needs and goals, with focused attention to build skills and confidence in the comfort of your home, school or daycare.

Telehealth Services

Our telehealth services provide families with access to behavior intervention and parent training, regardless of their location. Families can easily schedule sessions at times that suit them best.
